INTRODUCTION AND CONSENT

(2)

Hello. My name is \_\_\_\_\_. I am working with [NAME OF ORGANIZATION]. We are conducting a survey about health and other topics all over [NAME OF COUNTRY]. The information we collect will help the government to plan health services. Your household was selected for the survey. I would like to ask you some questions about your household. The questions usually take about 15 to 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on this card.

GIVE CARD WITH CONTACT INFORMATION

Do you have any questions?  
May I begin the interview now?

#### HOUSEHOLD: FOOTNOTES

- (1) This section should be adapted for country-specific survey design.
- (2) Increase the time reported to the respondent if modules are added to the questionnaire.
- (3) In Q. 18, the year should refer to the school year that is in session at the time the survey begins. If the survey begins between two school years, then the year should refer to the school year that just ended.
- (4) Countries that use sachet water (small plastic bags of water) as a source of drinking water should add SACHET WATER as a separate coding category after BOTTLED WATER, and follow the same question flow as households that use BOTTLED WATER (ask Q. 102, source of water for other purposes). Similarly, countries that have water kiosks should add WATER KIOSK as a separate coding category, and follow the same question flow as households that use BOTTLED WATER.
- (5) Coding categories to be developed locally; however, the broad categories must be maintained.
- (6) Add other country-specific animals, such as oxen, water buffalo, camels, llamas, alpacas, pigs, ducks, geese, or elephants.
- (7) Each country should add to the list at least five items of furniture (such as a table, chair, sofa, bed, armoire, cupboard, or cabinet). In addition, each country should add at least four additional household appliances so that the list includes at least three items that even a poor household may have, at least three items that a middle income household may have, and at least three items that a high income household may have. Some possible additions are clock, water pump, grain grinder, fan, blender, water heater, generator, washing machine, microwave oven, DVD player, CD player, camera, air conditioner or cooler, or sewing machine.
- (8) The question should be deleted in countries that do not have a widespread organized spraying program to prevent the transmission of malaria.
- (9) The question should be deleted in countries that are not affected by malaria.
- (10) Adapt question locally to use the name of the mass distribution campaign.
- (11) There are many different kinds of iodine testing kits available. The proper test kit should be selected in each country depending on the type of iodine additive used in the country (potassium iodate or potassium iodide). If both of these additives are used in a country, then both types of test kits should be used.
