

And the best student is...  
MARY

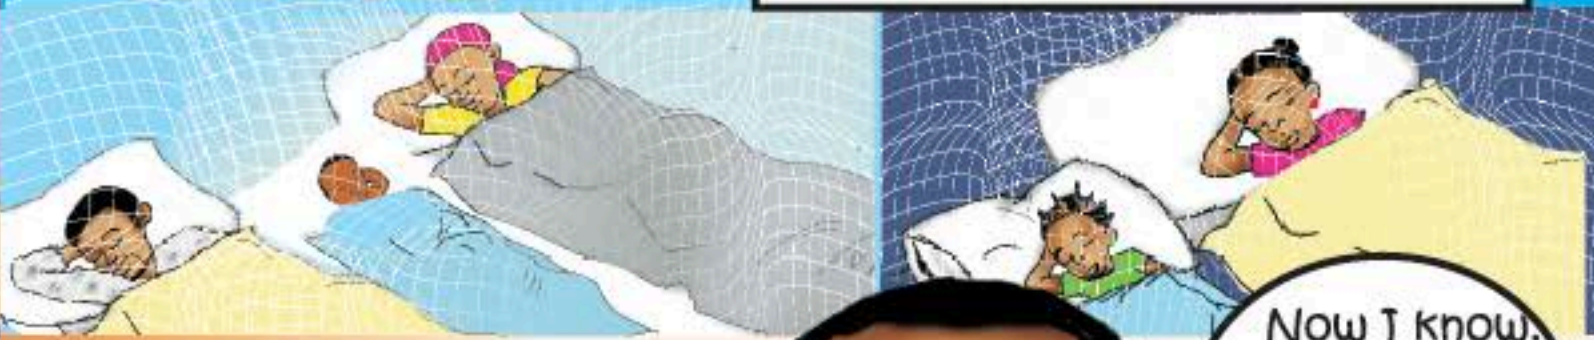

$12 \div 2 =$

Throughout last term, you were always ill; but this term you did not miss school, not even once. On top of that you now came first

John, let me tell you my secret. Since they started teaching us about malaria and mosquitoes in the school, I've been sleeping inside the mosquito net with my whole family

...Congratulations! But, how did you do it?

Now I know. This prize is mine next term

uhm... what do you mean?

Ah! I didn't know we were supposed to practice it o. I thought it was only for class work

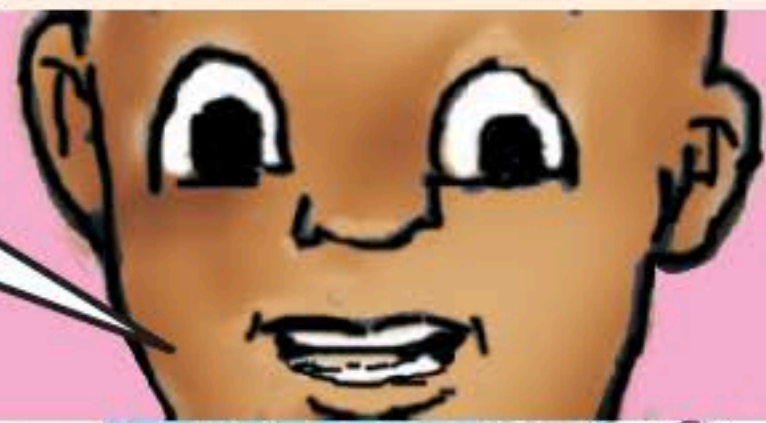

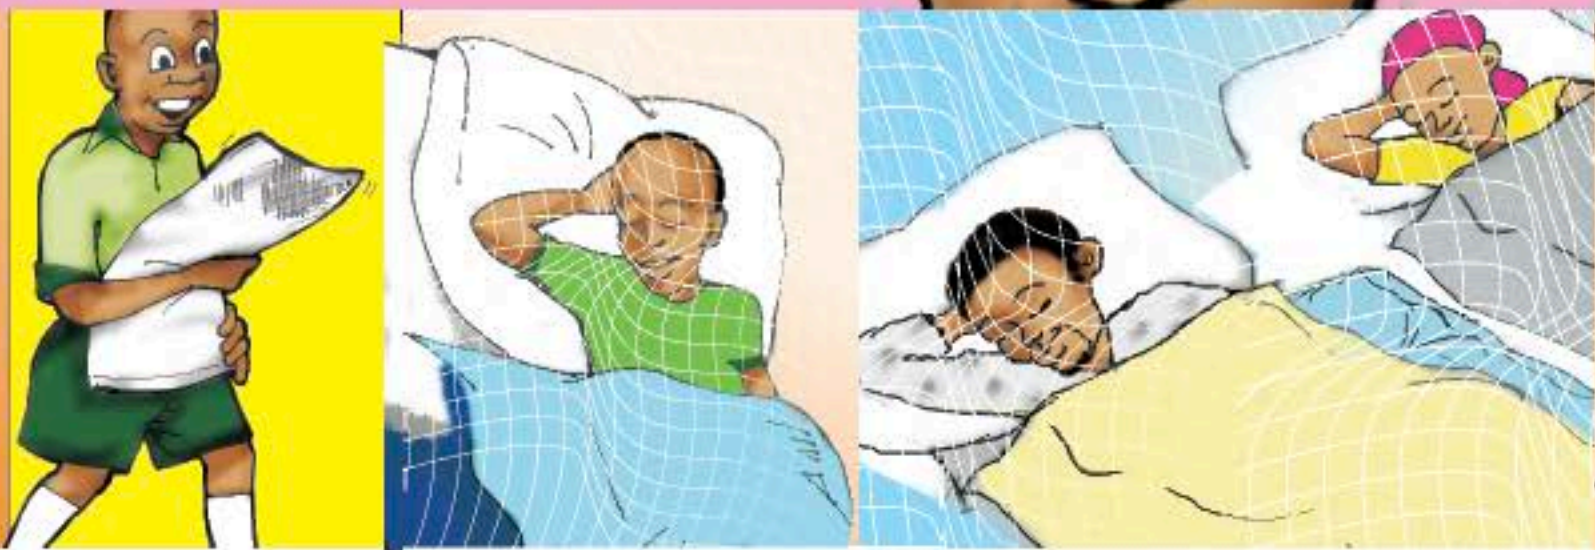

No o. Not only for class work o!  
You should sleep inside the  
mosquito net every night to protect  
yourself and your family from  
mosquitoes that give you malaria

Ok, I will tell my  
parents. We must  
all sleep inside  
the mosquito net too
